

# Postman

## Download Postman

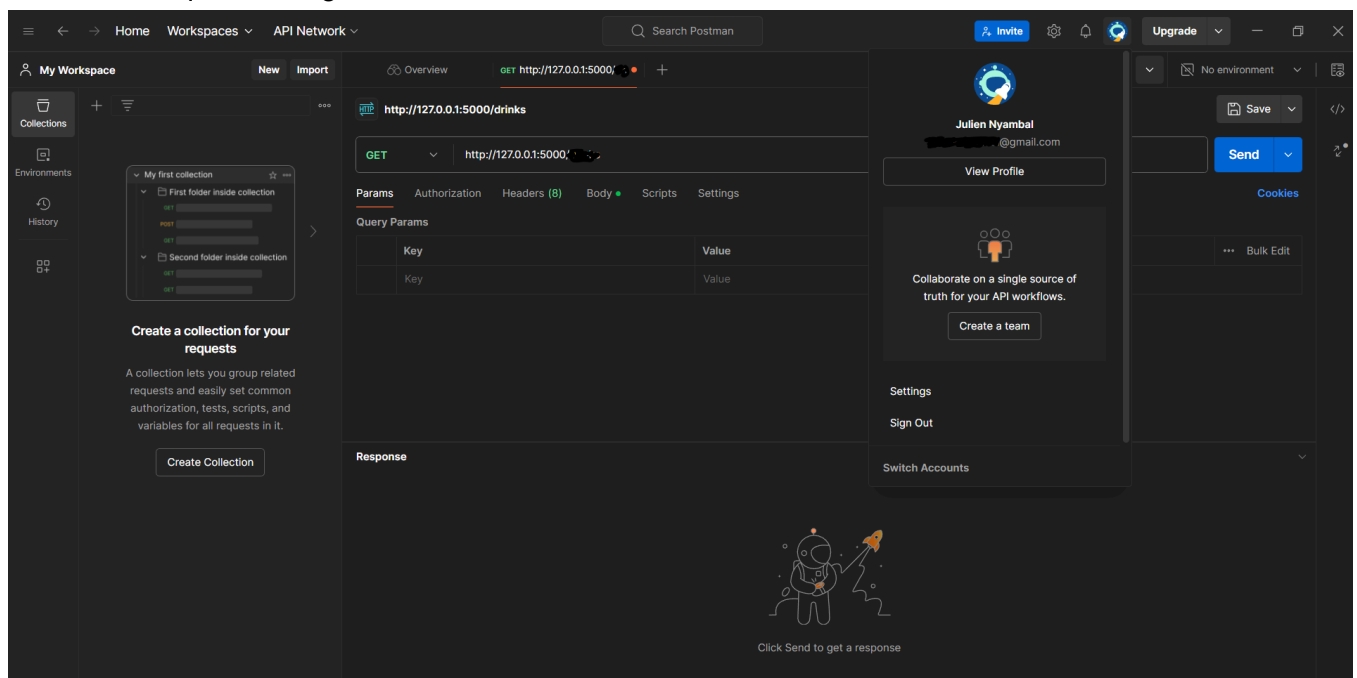

Either search on Google “Download Postman” or navigate to “<https://www.postman.com/downloads/>”. The installation link should be named after the Operating System requesting the page.

## Install Postman

Once the file is downloaded, double-click on it and install Postman.

## Start using Postman

You will be required to sign in.

After you sign in, you should be good to go!

Good luck!
